RECEIPTS AND EXPENDITURES FOR 1868

The national receipts of revenue from all sources for the fiscal year ending June 30 1868 were substantially as follows

Customs	$1[illegible]
Internal revenue (currency)	19[illegible]
Miscellaneous	4 [illegible]
Public lands and direct taxes	2 8[illegible]
Total	$40[illegible]

The expenditure of the Government on account of the interest on the public debt for the fiscal year ending June 30 1868 was $141 [illegible] 13 The other aggregate expenses of the several departments of the Government for the same period were $2[illegible] 914 64[illegible] 55 making a total expenditure for the fiscal year ending June 30 1868 of $[illegible] 520 225 and leaving an estimated surplus of receipts over expenditures of $34 [illegible]49 777 The details of the expenditure will be seen in part by the following statements which also show ground for believing that in future years the expenses will be smaller

Interest —The present condition of the debt of the United States necessitates the annual expenditure on account of interest of about $126 000 000 The excess of interest over this amount last year was due mainly to payments on accumulated interest on the compound interest notes and will not again appear

[illegible]—The expenditures of the executive legislative and judiciary, foreign intercourse territories collection of the revenue District of Columbia public lands, mints and assay offices coast survey light houses post office deficiency [illegible] were last year $53 009 846 95 The estimate for the present year is about $46 000 000

[illegible] Department—The expenditures under this head for the last fiscal year were $27 882 6[illegible]6 [illegible] apportioned substantially as follows For pensions $[illegible] 282 676 for Indians $4 600 000

Navy Department— The expenditures under this head were $25 775 502 72, but the appropriations for the present fiscal year are only $1[illegible] 700,000

War Department—The total disbursements of the War Department were $123 246 648 62 of which amount there were paid

For bounties	$38 000 000
Reimbursing State war claims	10 330 188
Engineer Bureau mainly river and harbor improvements	6 132,620
Payments for property lost or destroyed in the military service of the United States, estimated	5 111 300
Subsistence Indians estimated	1 000 000
Freedmen's Bureau	3 215 000
Expenses of reconstruction	1 99 270
National cemeteries	792 500
Commutation of rations of prisoners of war	152 000
Total	$66 533 238

This amount deducted from $123 246 648 62 indicates the legitimate army expenditures, for the fiscal year ending June 30 1868 to have been $[illegible]67,13 410 of which a large part is due to the Indian hostilities in the summer and fall of 1867 The military appropriations for the present year are only $33 081 018

CLASSIFICATION OF EXPENDITURES

Dividing the expenditures of the last year into ordinary expenses," or those which are required to support and maintain the government and extraordinary expenses" or those which have been the unavoidable result of the war, we have

The Presidency

[illegible] Seymour must [illegible] the [illegible] President [illegible] there are [illegible] question is [illegible] will be best for the country No one can deny that the consequences of Seymour's success will be very different from those that are likely to follow Grant's election and this is the point that thoughtful men should ponder To dwell mainly upon the mere personal qualities of the two men is childish It matters comparatively little which is personally the better man All such considerations are dwarfed by the mighty issues involved in the contest Whether Seymour is a perfect gentleman and an accomplished statesman, whether Grant has been in the habit of taking more wine than was good for him or whether he is a better General than [illegible] are [illegible] questions than this What results will be likely to flow from the triumph of either party—from the mere fact [illegible] independent of the characters qualifications and [illegible] of the two men? How will the election of Seymour affect the country? How will the election of Grant affect it?

Now so far as we are able to read the signs of the times we are convinced that the success of the Democratic party would be disastrous to the nation and to all its interests There is even serious reason to believe that it would endanger the public peace When Governor Vance, of North Carolina returned from the New York Convention, he informed his constituents that he could talk more familiarly of the wrongs of the South here than at the North He declared himself still a rebel and argued that what the Confederacy fought for would be won by the election of Seymour and Blair General Wade declared that he supported the nominees and especially Blair because he had promised that he would assume military power This spirit seems to be universal not only among Southern Democrats but also among Northern ones of the ultra type There can be no mistake about what is expected by the great majority of the party to result from the election of their candidates The Charleston *Mercury* says in so many words that in case of success the new President must undo the work of reconstruction and ad[illegible] The Government of the United States used the army and navy to elevate the negro to supremacy in violation of the Constitution What is there to prevent its being used to put the Southern States back to their original position of the supremacy of the white man over the negro? This is the strain of all the leading Southern Democratic journals, and there is no bluster or hyperbole about it They mean it It is their expectation and intention to overthrow by force the existing Governments in the seven reconstructed States This of course involves revolution—war Beyond all question the New York nominations and platform have revived the evil spirit of rebellion throughout the South in all its old virulence. They had come to accept reconstruction as an established fact but instantly on the receipt of the news and Blair's letter they flung away the idea and demanded that the reconstructed States should be reorganized they became once more arrogant and threatening the fierce and bloody spirit of hatred proscription and murder broke forth in fresh fury, and all this is, we think directly traceable to the hopes inspired by the proceedings of the New York Convention and by Blair's letter

If Grant is elected these hopes will be dashed and discouraged The revolutionary project will be abandoned The work of reconstruction will be completed and the peace of the country will not be disturbed Grant says in his letter of acceptance If elected to the office of President of the United States it will be my endeavor to administer all the laws in good faith with economy and with a view of giving *peace quiet and protection everywhere* Blair says There is but one way to restore the Government and the Constitution and that is *for the President elect to declare the R[illegible] acts null and void compel the army to undo its usurpations at the South and disperse the carpet bag State Governments* As we read these two programmes so widely different in their spirit the former is a guaranty of peace and order while the latter is a threat of revolution and war We prefer Grant and peace to Seymour and the prospect of civil disturbance

The Germans

From the Chicago Tribune

A Copperhead sheet notorious for its mendacious stories says

Indications of the disaffection among the Germans who have heretofore voted with the Radical party are becoming daily more numerous

A Great Commercial Want

The country has become impatient with the delays to which shipping is subjected at the mouth of the Columbia river. Recently the ship *Jennie Rice* from China lay off the bar nine days awaiting a favorable wind to come in whilst her passengers were dying daily. During any portion of that time a tug would have brought her easily and safely in. Every winter, vessels are detained inside, often several weeks, before they can get to sea, so that produce which can ill afford it, must shipped by steamer in order to its prompt arrival in market and the increased expense reduces just that much the price that would otherwise be paid to the producer.

All agree that a steam tug would afford a complete remedy. But the business is insufficient to support one. If the carrying were mainly done by sailing vessels it would be sufficient. But the delays drive the business to the steamers, which need no tug, and so discourage sailers from coming to the river. To charge the few vessels that now resort here such a rate for towage as would support a tug would not bring more, but drive away those we have, and private persons cannot maintain a tug at their own expense while awaiting an increase of business. The experiment has been tried. Three years ago a tug was built at an expense of thirty thousand dollars, and after a few months trial it had to be withdrawn and even sold on execution, to the ruin of the owners.

The number of vessels has since increased, and the bar pilots, who are eager to build a tug the moment it is safe, have recently sent one of their number to San Francisco to investigate the facilities and cost of constructing one of sufficient power for the service. Fifty thousand dollars is the lowest estimate. The [illegible] cost and insurance on that amount, and the expense of maintaining it will require many more ships to tow, or else largely increased prices over the present pilotage. A tug would bring more ships, with the present charge; but higher charges would drive away those we have. The hazard is too great for private enterprise, in the present state of the trade.

In view of its pressing importance to our commercial and agricultural interests, prominent citizens urge the propriety and necessity of State aid to a company who will establish and maintain a tug. To advance a portion of the cost upon proper security that it will be built, and afterwards to pay a portion of its annual expense for a limited time, would doubtless secure benefits to the State out of all proportion to the expenditure. For when a tug has become a permanent institution, goods can be imported and produce exported in sailing ships with regularity and dispatch. This will invite more ships to compete for our trade and greatly reduce the expense of marketing our products. And every dollar saved from freight is a dollar to the producer, and is a stimulus to increase production.

Injured Patriots.

The country is again favored with the opinions of Lee, Beauregard, and other Southern Democrats of rank on the political situation. It is the conviction of these illustrious patriots that the unsettled state of the country is due entirely to the people who preserved it from revolution. The blame rests wholly upon those who whipped the constitutional Democracy of the South, and overthrew the Confederacy which was there established. The authors of this pronunciamento write with the air of deeply injured and long suffering individuals, whose misfortunes are not their fault. They claim it as a great merit to have laid down their arms when they could resist no longer; and think that in return for so much condescension they should be permitted to rule the country once more. They were anxious and ready to engage in this work, having just got their paroles, and sworn, as the ex-Generals say, to support the Constitution again. But Lee, Beauregard, and every other person whose name is attached to this paper, were, at the breaking out of the rebellion, already under an oath "to support the Constitution of the United States." How much more binding is the last oath than the first? As every one of these representatives of the rebellion had committed flagrant perjury once, was it the part of wisdom to trust them so soon again? When they surrendered there was no stipulation whatever that they should have any privileges in the country. They were simply to go home, and not to be molested, so long as they "obeyed the laws in force where they might be." They were not to make laws; they were to obey those which might be made for them.

These men have taken the very course to prevent a peace. "Pretending," says the New York *Independent*, "to submit to the national will, they have done so just as the ancients planted basil—with cursing and swearing! Professing to have consented to a genuine peace, they have compelled our loyal citizens who went among them to breathe what Froude says Henry VII breathed on his return from Bosworth Field—'an atmosphere of suspended insurrection.' Proclaiming an eager welcome to good settlers from the North they have received those settlers with a sullen inhospitality, they have insulted them with the nickname of carpet-baggers, they have menaced them with the bloody orgies of the Ku-Klux Klan."

It is time for them to realize which side it was that gained the victory in the late struggle. Their minds have been mystified on that point ever since Johnson's apostasy began. Their disenchantment will follow speedily after the inauguration of General Grant as President.

The new independent paper of San Francisco, the *Chronicle*, has made its appearance. It presents a beautiful appearance, and the quality of its matter cannot easily be excelled. It asserts political independence, but has a leading article advocating the election of Grant and Colfax, and expressing the opinion that the success of Seymour and Blair would cause a revolution and civil war.

Johnson (Dem.) Congressman from the Third District of California made a speech in San Francisco last week in which he said that "if a mass of silver as large as this globe was to be run into half dollar pieces, it would not begin to pay our national debt." And this ass is a candidate for re-election! But he is a fair representative of his party.

Miscellaneous Notes

In a speech delivered at a meeting called to ratify the nomination of Seymour and Blair, at Atlanta, Georgia, Howell Cobb, probably the biggest coward and blusterer that ever held a General's commission, spoke of General Grant in the following infamous manner: "This man, who travels over the battle field, and thrusts his sword into every dead body, is a man who can never get my support for the Presidency. What a pity that Grant cannot get this unhanged rebel's support!"

The St. Louis *Democrat* observes that Congress, at the desire of Secretary Seward, voted seven millions for Alaska, and at the desire of certain St. Louis Democrats votes sundry millions to the eastern branch Pacific railroad. The money goes out of the treasury, and then the truthful Democratic sheets howl about an increase of the debt, "thirteen millions in two months," as proof of "Radical extravagance and swindling." How do you like that, tax payers whose money goes to enrich men like General Price, Messrs. Filley, Perry, Macpherson and other Copperheads? Don't you think they ought either to shut up or to be gorged?

During the last year or two a good many persons have asked us to mention and comment on the fact that the editorials of the *Herald* are written under the inspiration of a large portrait of the "Democratic" General, R. E. Lee, which the editor has suspended over his desk and which looks down with approbation upon his work. Now if the editor chooses to hang up over his desk a portrait of the traitor Lee, and to flank it one side with a portrait of traitor Arnold, and on the other with a portrait of the betrayer Judas so that his eyes may at all times rest upon some thing highly pleasing to his Democratic vision, whose business is it? We know of no right any one has to complain.

The Springfield (Illinois) *Journal* of August 19th, narrates an outrage perpetrated on General Grant on the occasion of his passage through Carlinville. A Democratic meeting had been held in town that day, and on breaking up a gang under the leadership of some ruffians, repaired to the depot where General Grant was expected to arrive. General Grant had raised the window of the car for the purpose of shaking hands with some friends whom he recognized, when one of the rowdies more impudent than the rest, rushed to the window, and shouting "Hurrah for Seymour and Blair," violently struck Gen. Grant in the face with his hat. This is the result of the teachings of certain Democratic newspapers, of the Brick Pomeroy style, and they are morally responsible before the American people.

We understand that a recommendation will probably be made to the Legislature to provide means for placing a steam tug at the mouth of the Columbia river. The new survey shows the entrance to be more favorable than any one had imagined, and, with a good tug at the bar nobody could say that the entrance is not as easy and safe as the entrance to San Francisco harbor. Vessels of the deepest draught can enter the river. There is no ship afloat which cannot come in. Before steam tugs came into use, it was often impossible to get out of New York harbor for days and weeks together. With powerful tugs at the mouth of the Columbia, vessels can come in at any time with certainty and safety. We are assured that the publication of the new coast survey will dispel all fears of imaginary dangers at the bar and contribute very much to increase the commerce of Oregon.

It is well remembered that the Copperheads for two years used all the arts they could command to induce General Grant to commit himself to them so that they could make him their Presidential candidate. Suppose the great General had placed himself even half way in the Democratic path, would he not have been twice as acceptable to the party as Blair, the lesser General? No one can doubt it. One word of encouragement, and the party would have hastened to give him the nomination; and what would have been the result on the conduct of Democratic editors? Would we have heard a word about drunkenness, responsibility in the matter of starving our soldiers in Southern prison pens, incapacity, either as a General or for civil service? Not a syllable. The laudations from Democratic pens would have been fulsome and sickening to a man of unostentation like General Grant. The soldier could not place himself in antagonism to the cause he made to triumph, and must receive Democratic abuse for his integrity.

The Sacramento *Union* publishes in full the speech delivered by Senator Williams at Platt's Hall in San Francisco, and remarks that few speeches of the campaign can be more clear, logical and convincing. Passing over the entire ground, he treats every issue in a manner as exhaustive as it is brief, and exhibits clearly the raggedness of the record upon which our political opponents are obliged to go before the country. Senator Williams shows that Congress has not legislated outside the Constitution, but has carefully kept within its legitimate sphere, and that, if it has used powers which Secessionists always denied, it is because they woke the slumbering lion and developed latent energies in the Government they sought to destroy. On the suffrage question and the Chinese question, also, the Senator's response to Democratic criticism was unanswerable. On the financial issues he expressed that distrust of Democratic professions which facts justify, and evinced that earnest resolve to uphold the honor and credit of the nation which meets with the hearty sympathy of loyal people.

When Rev. Joseph Smith, Democratic Congressman elect, was making his canvass through the State before the June election, he was greatly exercised lest negroes should attempt, "under the Radical policy," to force themselves into his company when his saintly reverence, accompanied by his family, should happen to attend church. We greatly fear that there was reason for his forebodings. The humiliation and degradation which he feared has happened already—the only difference being that he forced himself into colored company, instead of the colored people forcing themselves into his. Last Sunday at Salem his Pharisaical reverence kneeled at the altar by the side of some colored women and partook of the sacrament with them. Now here are some practical questions for Rev. Joseph Smith. How much more degrading is it for him to sit in the same pew with a colored person at church than to kneel with that person at the same altar and partake with him in the name of their common Redeemer of the same bread and the same cup? How much greater does he suppose he will be in the kingdom of heaven than the humblest of these colored persons against whom he has been hounding on his political followers in his partisan harangues for so great a number of years? Does his association with colored people on such holy occasions as that of last Sunday result from the "Radical policy," which he has so often denounced as calculated to bring high toned individuals like himself into company with negroes at church? When he was kneeling by the side of the colored sisters, were his thoughts anything like the idea—"I am holier than thou," and did he inwardly repeat any of his powerful arguments against "nigger equality?" And finally, was he ashamed of his frequent denunciations of the "Radicals" for their alleged agency in impelling him to sit (or kneel) with negroes in time of worship? The answer to this last question is, probably not. It is to be hoped that Rev. Joseph Smith will tell the people in his future speeches just how much the "Radical policy" has to do with these matters, and whether he was acting the part of a fool, a hypocrite or knave in lugging them into his partisan harangues last spring.

Smash Them with the Figures!

Some facts are stated in the letter of the Commissioner of the Treasury Department published elsewhere in this issue which make sad havoc with the statements and assertions of the Copperheads about the public expenditures. By referring to the figures there furnished, it will be seen that the reconstruction has cost the Government just $2,344 700 00. This is what the "hundred of millions" which the Copperhead press declares have been spent "to establish negro governments in the South" are summed down to! Again the Freedmen's Bureau, since its first organization, has cost $5 [illegible] 17,000. Where are the other "hundreds of millions" which we have been informed are paid yearly to maintain lazy negroes in idleness? The disbursements of the War Department for the year ending June 30 1868 were $123 216 648 62, of which half was for bounties, reimbursing state war claims, &c., while a large part of the other half was caused by Indian hostilities. For the present year the entire appropriation for the army is only $33 081 018. The navy also has been reduced to the footing on which it stood before the war. Let these figures be preserved, and when a Copperhead begins to talk nonsense on these matters, just enlighten him! Show him that when he is talking in his extravagant way about the cost of the Freedmen's Bureau or the expenses of reconstruction he is either telling absurd falsehoods of his own or retailing the falsehoods of others. Inform him that the expenses of the Government are now only $90 000 000 a year in greenbacks (exclusive of interest on the public debt, bounties, etc.) while the expenses under Buchanan's Administration were $70 000 000 in coin. Go right after the brawlers with the official figures and give them no quarter!

Two thousand more Democratic lies are smashed by another plain official statement from the War Department, which shows that only 13 396 men of the army are on duty in all the rebel States. This is exclusive of 2 412 guarding sea coast forts who would be needed there in any case, and 2 723 engaged against Indians exclusively, the total number on all kinds of duty in all the States that attempted to secede being only 18 [illegible], or less than half the number given by the Copperhead editors and speakers. But their point is only with regard to those who are stationed at the South to preserve peace during the progress of reconstruction, and these as above stated number only 13 396—no more and no less. Again, the Copperheads have charged that this force costs $2 000 per man per year, whereas the official statement shows that the cost is only $1,000 per man, and the total cost of the above force for the year ending June 30, 1868, is only $13, 96[illegible]00. But this same force, if not on duty at the South would still have to be stationed somewhere and supported somewhere, and it could not be supported anywhere at less expense than at the South.

Brick Pomeroy publishes a list, giving the number of subscribers to his paper in the several States. He claims to have 2 186 in Oregon a larger number than the *Herald* or any other Democratic paper published here can boast. He says his entire circulation is above 270 000,—a circulation greater than any other six Democratic papers in the country. It follows therefore that this beastly, blasphemous publication is the best representative and most correct exponent of the Democratic mind.

The Copperheads no longer dare to meet the suffrage question openly. Here and there by some mean fling or sneer they try to touch an old prejudice. But of straight out opposition to or argument against negro suffrage, you see very little. The New York platform set the example. It contains not a word against negro suffrage, though it indirectly appeals to the prejudice of color.

Rebel Wade Hampton, of South Carolina, declares that he is the principal author of the Democratic platform. He also says: "Let us not employ, in the future, any one, white or black, who gives his aid to the Republican party." This is a good Democratic motto for the campaign.

When the rebellion broke out Horatio Seymour was a secessionist, holding with his party that the Government had no power to coerce the people of a State to remain in the Union or under the action of the National Government.

The height of Mount Baker is estimated at 11,400 feet. The summit of the mountain is a crater from which smoke, steam and offensive gases are emitted. The mountain is but a few miles south of the 49th parallel.

One week ago the distance between the two termini of the Pacific Railroad was 626 miles. This gap is being spanned at the rate of six or seven miles per day.

LAY LOW AND KEEP DARK.—The Northern Democracy are alarmed at the probable consequences of Frank Blair's threat of revolution and civil war, and at the blustering tone of the Southern press and orators. They have, therefore, requested their allies to be more prudent—to think and purpose what they please, but to say nothing until the time shall come to act. Here is what the Charleston *Mercury*, of the 10th July, says:

"Private advices from our most strenuous friends at the North request that we should protest against the imprudent expressions that have escaped some Southern speakers since the adjournment of the National Democratic Convention. It is represented to us that great injury is accruing to the cause from such imprudence. We therefore shall make no apologies for asking the attention of our public speakers to the fact. We are all desirous of pushing on the good work of success, and no one would voluntarily impede its course who was aware of the fact. While no man in the South should be, and no true man is ashamed of our great lost cause, and while when we speak of the past we should speak like true men, it is questionable whether at this time any thing is to be gained by too much reference to things that jar on people's nerves. *What we want just now is to win.* To much is at stake to waste it now at *feux de joies*. *Let us have our pyrotechnics in March.* *In the meantime, friends, let us,* without abating one sentiment that is true, be cool and steady and give the enemy no advantage."

The Montana *Post* has a long account of an extensive exploring expedition in the northern part of Montana in search of new gold fields, under the lead of Captain John S. McClelland. The party found some magnificent scenery and some rich agricultural regions and a great many finely timbered valleys, but they were unsuccessful in the object of their search.

CRICKET SOUP.—The Owyhee *Avalanche* says: "Last week we printed a recipe for making cricket soup, but didn't advertise for material. Nevertheless, some well meaning friend, whether a member of Winnemucca's band or some one else, God only knows, last evening sent us a cigar box of crickets, nicely roasted and prepared according to our recipe, for which the generous donor has our sincere thanks."

The Democratic party deliberately sacrificed thousands of white men in order to save their slaves, and yet it calls itself a white man's party.

The Hon. F. W. Green, a prominent Indianapolis Democrat, repudiates Seymour and Blair and comes out for Grant and Colfax.

NEW RENDERING BY GRANT.—"I propose to fight it out on this line if it takes all Seymour."

The Huntingdon (Pa.) *Globe* (War Democrat) hoists the name of Grant and Colfax and the whole Republican ticket.

The *Frontier Index* is a paper after the *Oregon Herald's* own heart. That it is Democratic to the core will appear from the following from its issue of August 18th:

"The plate on our paper [illegible] is branded 'R. E. Lee.' Our other sign is being painted not by a nigger, Chinaman, Indian, mongrel, tailed monkey, but by a white Mormon. Our reporter is now at a prize fight of white Irishmen. Our columns are headed by the magic names of Seymour and Blair. And we mean business. * * * If Grant, the blood-dyed mogul who rode the jackass while the monkey rode him, and the monkey rode mogul, erect his throne in the White House, we say that if these hellish schemes are not defeated at the November election, the war of races be commenced. Our watch word will be Revolution or Death." Horace Greeley's irrepressible conflict is kindling into a universal flame which can alone be quenched by Democratic victory either at the polls or on the battle-field.

A Democratic organ of New Hampshire, with a lively appreciation of Blair's recent letters, thanks God that Gov. Seymour is not liable to delirium tremens.

THE CHRONICLES.

And it came to pass in the third year of the reign of George the Third who was ruler over the land of Webfoot that the news went through all the land that KOHN & FISHEL at No. [illegible] Front street Portland were selling Dry Goods and Clothing at fabulously low prices and all the people heard it and they straightway came unto that place, and when they had demanded the prices at KOHN & FISHEL'S store they marvelled and said: "The half has not been told us, for here we can buy all kinds of Clothing and Dry Goods for ourselves, our wives and our little ones much cheaper than at any other place in all the land of Webfoot." And from that day even until now the people have come in great numbers to buy their goods of KOHN & FISHEL.

Are You Bilious? Multitudes of both sexes will answer this question in the affirmative, for, next to disorders of the stomach, liver complaints are perhaps the most prevalent of all internal diseases. [illegible] yellowish tinge in the whites of the eyes, especially in the inner corners, an uneasy or slightly painful sensation in the side, pain between the shoulder blades, sick headache, lassitude, mental dullness, lack of appetite, and irregularity of the bowels. Whoever recognizes this tinge as applying to his own condition, may be quite certain that more bile exists in his blood and less passes through his bowels than is expedient for his health, and that his liver requires toning and regulating. One of the special uses of

is to meet just such cases as this. [illegible]

[illegible] WHAT EVERY NEWSPAPER SHOULD BE. [illegible] from the first issue of the San Francisco [illegible] *Chronicle* briefly states just what every [illegible] ought to be but unfortunately what almost every [illegible] is not. Reports have been circulated that th[illegible] *Chronicle* would be a party organ. This is not so. Th[illegible] means to live, to flourish, to make [illegible] party organ it could do neither. There are part[illegible] enough in California—too many, in fact, for th[illegible] good. What is needed is a journal which will no[illegible] bound in any degree by the dictates of party—which [illegible] speak the truth freely and frankly about anybody o[illegible] thing. And such a journal is [illegible] time, when a political canvass is [illegible] of journals at other times having [illegible] of independence are closed by their fear of [illegible] the party if they speak the truth. The *Ch*[illegible] not be neutral but it will be [illegible] the truth with no inquiring whom it will hurt [illegible] it will benefit. And we believe there is a field f[illegible] We believe that the majority of our citizens are no[illegible] partisans, willing to hear only one side, but me[illegible] desire to know all the facts, that they may [illegible] minds intelligently.

ACCIDENT.—A short time before the *Oriflamme* le[illegible] yesterday [illegible] a longshoreman, known [illegible] "Dutch Pete," while handling some freight on board [illegible] his footing and fell down the [illegible] his arms just above the elbow. He was not othe[illegible] much injured. After the steamer left, one of the [illegible] who was engaged in taking some part of the [illegible] was caught in [illegible] had his right arm and [illegible] shoulder badly broken. He was brought up to the cit[illegible] the *Fannie Troup* and received treatment at th[illegible] of Dr. [illegible] who also attended upon the fir[illegible]

WASHINGTON COUNTY RAILROAD AID.—From a gentle[illegible] from Washington County we learn that the County [illegible] of that county this week amended the [illegible] rail[illegible] order [illegible] allowing the Railroad Company thre[illegible] thousand dollars of the bonds immediately, and then five [illegible] thousand dollars of the bonds as often as the Compan[illegible] a mile of road in that county. The people o[illegible] Washington county are manifesting a determination t[illegible] their railroad every way. Large individual sub[illegible] scriptions are now being made in addition to what hav[illegible] been made heretofore.

UNITED STATES BUILDINGS.—It is understood that th[illegible] Secretary of the Treasury before proceeding to construct [illegible] the mint building at the Dalles and the custom house [illegible] Astoria desires the consent of the legislature to th[illegible] cession of the [illegible] give the United States ex[illegible] exclusive control over them. The work is therefore tempo[illegible] rarily delayed. The [illegible] of the legislature on th[illegible] subject will probably include a site for the court house [illegible] and custom house buildings in Portland and the thre[illegible] will be commenced in the spring.

MUCH WORK.—The Willamette Iron Works is doing an [illegible] amount of work this summer. The whol[illegible] force fairly swarms with workmen while the building[illegible] all the [illegible] lots and even a part of th[illegible] street are literally piled up with castings and machinery. [illegible] late the proprietors have been obliged to employ an [illegible] additional hands in all departments, and to run [illegible] in the foundry every day to keep up with orders.

AGROUND.—In the thick fog yesterday mo[illegible] the [illegible] steamship *Oriflamme* [illegible] out of the channel [illegible] mouth of the river and ran aground. She [illegible] till the steamer *Fannie Troup* came along and pulled [illegible] off. There is no lack of water in the channel, and [illegible] mischance is altogether due to the fog.

AT LAST.—We have been informed that the advent o[illegible] [illegible] has given rise to a [illegible] owners to employ be[illegible] [illegible] for the steamer will be taken a[illegible]

DESTRUCTIVE FIRE.—From a gentleman who came up on Sunday by the Chinook we obtain the following particulars of the destructive fire at Chinook last week. On Wednesday a Mr. McNamee set out a fire in the woods which finally got beyond his control though he used strenuous efforts to subdue it. The wind was blowing strongly from the south west and the fire was making rapidly towards the residences of M Nauree Mr. McGowan and Mr. Norton the latter two of whom lived only a mile west of Chinook. A day or two subsequent Mr McGowan set out a back fire which continued to burn till Sunday, when the wind veered and the two fires, with considerable force driving the two united, rapidly down the river. A considerable number of men congregated at once and made every possible effort to stop the fire or to save the property of the settlers. Nothing availed however and the houses, sheds, fences, and everything else in the way of the rushing sweep of the flames were overrun and destroyed. Mr McGowan's house fences sheds barrelled fish etc were swept away. Mr. Norton lost his house, cooper shop furniture, tools and a large quantity of staves and other [illegible]. He and his wife succeeded in getting some of their clothing and a little furniture out of the house and near the bank of a small creek where they saved it by covering it with wet blankets and by continually throwing water upon it. Mr and Mrs Norton were obliged to crouch down near the water and were covered with wet blankets. The greater part of their furniture and all the tools were burned after they had got them removed from the house and shop, the fire coming on too quickly to admit of the removal of the goods to the creek bank. With all his precautions, Mr. Norton was burned severely upon the face. [illegible] above and entirely over them as [illegible] by the edge of the stream and [illegible] could have saved them but the fortunate [illegible] that the banks on either side [illegible] able height. There was no means of escape, as the advancing line of fire extended from the very edge of the bay to the mountain tops, and they were compelled to remain quiet while the surging tide of fire rolled over them. Their fowls and domestic animals were all burned to death. The fires are still raging in the woods to the northward, though with [illegible]

Should the suit be adverse [illegible] the owners, it is probable the steamer will be taken back to Puget Sound.

THE WHITE BOYS IN BLUE

INDIANAPOLIS Aug 18.—The Copperheads of this State have organized a political association called the "White Boys in Blue," which they claim to be composed of honorably discharged Union soldiers but the fact has recently leaked out that but very few of the members of the organization in this city ever were in the service, while a number of them are ex Confederate soldiers and draft sneaks. The Copperheads have been frequently but vainly called upon to publish a roster of their companies.

A BOGUS COLONEL

About two weeks since a fellow turned up here calling himself Colonel Jas L. Foster, of the Sixty fifth N Y V. He said he had been twice wounded, and the Democracy at once rallied around him, and availed themselves of his services as public speaker. He was paraded at all their ward meetings, and they congratulated themselves on the prospect that he would accomplish wonders for them with the ex Union soldiers. The masses have inquired of him how he earned his title what regiment he served in, &c. He answered, the Sixty fifth New York, and related various stories about his services. But unfortunately for him, copies of the Adjutant General's report of the State of New York were in the city, which, upon examination, proved that no such person had ever been connected with the Sixty fifth Regiment. As soon as these fact were published, Foster left the city and has not been heard from since.

THE PROSPECT

The indications now are that the Republican State ticket will be elected by an increased majority over that of two years ago, when the Republican ticket was carried by over fourteen thousand majority. The Copperheads do not work as if they expected to carry either their State or national ticket. They do not appear to have any heart in the work. Money is scarce with them, and bets go begging. The tide is floating in our favor, and we shall surely gain strength from this time until the election.

"IF men or women could but find the fabled fountain which is said to restore health and strength and beauty, with what eagerness they would rush to drink its waters." It is found in the S. T.—1860.—X. The sale of the PLANTATION BITTERS is without a precedent in the history of the world. They are at once the most speedy strengthening health restorer ever discovered. It requires but a single trial to understand this.

PANIC STRUCK BEAUTY.—It is a terrible shock to a charming woman—indeed, to any woman—to find that her teeth are "beginning to go." Never will any human being who uses the fragrant Sozodont make that discovery.

"SPALDING'S GLUE"—no well regulated family will be without it.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the Interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned, and placed on their guard against this practice.

Fortiter—Fideliter—Feliciter.

Fortiter. No weeping can restore thee,
The old time sweetness of the old time bliss,
Take up thy cross and tread the path before thee,
Beyond it lies a better land than this.
Strive though thy heart be aching, falter never,
Thank God that He has given thee strength to bear,
Life binding ties, the hardest here to sever,
Are golden links by which to go up there.

Fideliter. No swerving, no deserting,
No backward turning of the bleeding feet,
Memory is cruel. Hope is bliss in dying,
Regret so hard, forgetfulness so sweet,
Fideliter. In spite of what love brought thee
Is with thee till the last and ... thy ... youth
Through all the years of waiting never wrought thee
A fairer blessing than that gift of truth.

Feliciter. God only knows, no matter,
Not here, poor hearts, the guerdon will be won,
Death comes at last, and fruitless longings scatter,
And tears are dried, and suffering is done.
Above this weary world, its wrongs forgiven,
Smiles the glad sunlight of eternal day.
Why heed its keenest tortures, why? In Heaven
The ransomed soul will cheat them of their prey.

ASSOCIATION OF THE SEXES IN COLLEGE LIFE.—Elizabeth Cady Stanton, writing to the *Revolution* from Northern New York, says there has been considerable discussion on the propriety of opening Cornell University, a free agricultural college to both sexes, thus giving a grand opportunity for a thorough scientific education to the daughters of the State. Among those who oppose such an innovation is Dr. Bowditch, grandson of the great mathematician, Nathaniel Bowditch, who translated La Place. He and those who think with him hold that boys are too coarse and too vulgar in college life for association with girls. Dr. Bowditch said this was especially so with medical students. It is also argued that girls are so fascinating that boys could not study in their company. To these specious arguments Mrs. Stanton replies: "Remember the young men who crowd these colleges are to be the companions, the future husbands, of pure, refined daughters. If medical students, in the contemplation of the human organism, the most wonderful of all God's works, are too material to be lifted up with high and reverent thoughts in the mysteries of mind and matter, how can they enter the sick chamber to counsel with your wives and mothers? If your daughters cannot stand by the dissecting table with young men to study the wonders of the nervous system and the circulation of the blood without danger of rude comments, how can they marry such men without danger of being dragged down into their material atmosphere?" These are sound arguments, and we wish there were more bold, pure, outspoken and earnest women to utter such in behalf of reform and human advancement, and less male bigots to sneer at and ridicule them, and throw prejudice-inspired articles obstacles in their pathway. Impractical as we may consider the *Revolution* upon many topics of public concern, upon this particular subject of giving the ladies an equal chance with gentlemen to become highly and usefully educated we regard it as both logical and correct. The prejudices and prudery which have hitherto prevented it are slowly yet surely vanishing, and Mrs. Stanton and her confres of the *Revolution* are praiseworthily helping on the good work.

DEMOCRATIC CHIVALRY.—General Buckner (Copperhead) complained of General Grant's "unconditional surrender letter," that it was "unchivalrous." And yet the Tammany Convention was largely composed of rebel officers who are yet under a parole of honor to General Grant, and whose escape from Andrew Johnson's vengeance in 1865, is entirely due to the manly stand taken in their behalf by the General. This is chivalry—of the Andersonville sort. Colonel Badeau in his "Life of Grant," describes an occurrence which took place at Vicksburg after the surrender, which gives us a further insight into the manners peculiar to our "Southern brethren." He says:

"He went direct to one of the rebel headquarters, but there was no one to receive him, and he dismounted and entered the porch where Pemberton sat with his Generals; they saluted Grant, but not one of them offered him a chair, though all had seats themselves. Neither the rank nor reputation of their captor, nor the swords he had allowed them to wear, prompted them to this simple act of courtesy. Pemberton was especially sullen, both in conversation and behavior. Finally, for very shame, one of the rebels offered a place to Grant. The day was hot and dusty; he was thirsty from his ride and asked for a drink of water. They told him he could find it outside; and, no one showing him the way, he groped in a passage until he found a negro, who gave him a cup of cold water only, which his enemy had almost denied. When he returned his seat had been taken, and he remained standing during the rest of the interview, which lasted about half an hour."

A TRIBUTE TO GRANT.—General J. L. Alcorn, one of the ablest men in the State of Mississippi, in his late speech at Holly Springs, paid a handsome tribute to General Grant. He said:

The Southern people owed him a debt of gratitude; that he had saved the nation in mercy, and when the South had surrendered her armies, Gen. Grant had held in check the fierce wrath of Andrew Johnson, who stood ready to make good his pledge for blood and confiscation. He stated that twelve months ago he had written a letter in which he had declared for Grant. He still declared for him as the only hope of peace in the land. Elect Grant, and all would be well; defeat him, and intense feuds and internal commotion would continue in the land, pressing back our coming prospects, and opening the way to wider ruin.

The *Elevator*, edited by a colored man, says that "abolishing the geological survey of the State of California, and closing the colored school of San Francisco are triumphs of Democracy." It should have added the defeat of the testimony bill, by which Democratic road agents are protected in their enterprise of robbing Chinese.

The Boston *Post* says the Democrats of Vermont had an old-fashioned convention last week, and that "the enthusiasm rose to high-water mark." The Vermont Democrats are a set of cheerful clams. A gentle dew makes it high tide for them.

TO ALL WHOM IT MAY CONCERN.

PORTLAND, Og'n, July 28, 1868.

As there are a great many people sick and dying of a disease called Cholera Morbus, I would call attention to the Chinese Doctor Jim. Having eaten green fruit I was taken very bad with the above disease, and lay insensible for four hours, when Dr. Jim was called, and in 20 minutes after he gave me the first dose of medicine I was easy and safe. I believe that there is no other doctor on the Pacific coast that could have relieved me as quick as Dr. Jim did. M. G. MORGAN

CAUTION.

His statements are not worth a denial. His game is "Bluff," which, if he would only take the case to Court, would soon be played out. Don't believe him!

I would be glad to get a case into the United States Court and get a decision. That would forever stop the mouth of Myers and his misrepresentations. TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL. San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to affect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 253.

REMEMBER TO PUT BOX 253 ON THE LETTER.

Consultations FREE.

HIRAM SMITH'S
Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMPEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.
